

DEWALT® Introduces Several New Outdoor Battery Powered Products at GIE+EXPO™; Demonstrating Its Continued Innovation in Electrification

New products include a chainsaw, pruner, rear wheel drive mower and electric pressure washer. Visit DEWALT booth (#7068).

LOUISVILLE, KY, Oct 20, 2021– DEWALT will preview a range of new outdoor power tools at the 2021 Green Industry and Equipment Expo (GIE+EXPO). Designed to tackle tough landscaping and maintenance jobs, new DEWALT outdoor products include the 60V MAX* 20-In. Chainsaw (DCCS677Z1), 20V MAX* Pruner (DCPR320), 2x20V MAX* Rear Wheel Drive Mower (DCMWSP255U2) and an Electric Jobsite Pressure Washer (DWPW2100).

“The landscaping and outdoor industry is rapidly changing, with more robust and innovative technologies powering equipment,” said Christine Potter, Vice President, Outdoor Product Development for Stanley Black & Decker. “We are doubling down on our electrification technology to continuously transform outdoor solutions to battery power while delivering the quality and performance professional users expect from DEWALT. All of our new products were designed with the pro in mind and are tough enough to tackle the most challenging outdoor projects.”

60V MAX* 20-In. Chainsaw

Made for professional landscape use, the 60V MAX* 20-In. Chainsaw (DCCS677Z1) delivers 20 percent more peak power and more than 2X the max torque than a 50.2 cc gas chainsaw.** Capable of cutting through 17-In. white oak logs as fast as 15 seconds using a DCB615 battery, the chainsaw features robust chain tensioning for reliable chain retention, auto-oiling for longevity of use, a chain brake and an onboard wrench for quick chain adjustments. The unit will be demonstrated at the DEWALT booth (#7068) throughout the show and comes kitted with a FLEXVOLT® battery (DCB615), charger, bar sheath, rugged carrying case, sharpening file and tension tool.

20V MAX* Pruner

The 20V MAX* Pruner (DCPR320) joins the 250+ products in the DEWALT 20V MAX* System and requires 16X less effort on average to make cuts than a manual pruner.*** Weighing just 3 lbs. (tool only), this lightweight tool was designed to cut unwanted branches, trim bushes and clip flowers throughout the day. It delivers up to 1,100 cuts per charge^Δ with a 1-1/2-In. cut capacity for thick stems and shrubs and features an on-board LED work light for improved visibility. The pruner makes smooth and swift cuts with its non-stick coating and easy to switch blades, and comes equipped with a tool for blade changes.

2x20V MAX* Rear Wheel Drive Self-Propelled 21.5-In. Mower Kit

In addition, DEWALT will be displaying the new 2x20V MAX* Rear Wheel Drive Self-Propelled 21.5-In. Mower Kit (DCMWSP255U2). Designed to quickly mow large yards, the rear wheel drive mower cuts grass from 1-1/2-In. to 4-In. tall with auto-sensing technology that helps maintain high revolutions per minute (RPM) when tackling demanding yardwork. With 3-IN-1 functionality, the mower can mulch, bag, or discharge clippings and features a fold-over handle for convenient and trouble-free transport when the job is done. The unit is sold with two 20V MAX® batteries (DCB210), two chargers, a side discharge attachment and a grass collection bag.

2100 MAX* PSI^Ω 1.2 GPM[†] 13 Amp Electric Jobsite Pressure Washer

Power through outdoor cleaning jobs with ease using the 2100 MAX* PSI^Ω 1.2 GPM[†] 13 Amp Electric Jobsite Pressure Washer (DWPW2100). Designed with internal storage capability to seamlessly stow and retrieve the included wand and nozzles, the unit has a durable frame for stacking[‡] and is 3X smaller when stored in the closed position[§]. Weighing just 24 lbs. (tool only), its compact design allows the unit to be stored vertically or horizontally and includes multiple grab points for loading and unloading, wheels for ease of movement and a retractable handle for hassle-free mobility. Accessories include a 25-Ft. high pressure hose, turbo nozzle for up to 2.4X cleaning width[§], 15-degree nozzle, 40-degree nozzle, a soap nozzle, wand with nozzle storage and a built-in removable soap tank for projects that require detergent for a full clean. In addition, the pressure washer is Cleaning Equipment Trade Association (CETA) certified adhering to the CPC100 performance standard.

Also debuting at GIE+EXPO is the DEWALT 60V MAX* 18-In. Chainsaw (DCCS672), 60V MAX* 26-In. Hedge Trimmer (DCHT870) and 20V MAX* Edger (DCED400). All of these new outdoor power tools will be available where DEWALT products are sold beginning in Spring 2022. More details on both kitted and bare units are below. For more information on DEWALT tools, visit www.DEWALT.com.

SKU	Product Name	MSRP
DCCS677Z1	60V MAX* 20 in. Chainsaw Kit (5.0 Ah)	\$499
DCCS677Z1	60V MAX* 20 in. Chainsaw Kit (4.0 Ah)	\$449

DCCS677Y1	60V MAX* 20 in. Chainsaw Kit (4.0 Ah)	\$449
DCCS677B	60V MAX* 20 in. Chainsaw (Tool Only)	\$349
DCCS672X1	60V MAX* 18 in. Chainsaw Kit (2.0 Ah)	\$369
DCCS672B	60V MAX* 18 in. Chainsaw (Tool Only)	\$279
DCPR320D1	20V MAX* 1-1/2 in. Cordless Pruner Kit	\$149
DCPR320B	20V MAX* 1-1/2 in. Cordless Pruner (Tool Only)	\$99
DCMWSP255U2	2X20V MAX* Brushless Cordless 21-1/2 in. Rear Wheel Drive Self-Propelled Mower Kit	\$649
DWPW2100	2,100 MAX PSI ^Ω 1.2 GPM† 13 Amp Electric Jobsite Cold Water Pressure Washer	\$249
DCHT870T1	60V MAX* Hedge Trimmer Kit	\$249
DCHT870B	60V MAX* Hedge Trimmer (Tool Only)	\$179
DCED400M1	20V MAX* Brushless Cordless Edger Kit	\$199
DCED400B	20V MAX* Brushless Cordless Edger (Tool Only)	\$149

* Maximum initial battery voltage (measured without a workload) is 20 and 60 volts. Nominal voltage is 18 and 54. AMP hours (Ah) shown are measured in 20V MAX* mode only.

** Using DCB615 battery vs Stihl MS271 50.2 cc Gas Chainsaw. Stihl is a trademark of Andreas Stihl AG & Co. and its use is for identification purposes only. No sponsorship or affiliation is implied.

*** Using DCB203 battery (sold separately) vs. Fiskars 391651-1003 cutting 19 mm birch dowels. Fiskars is a trademark of Fiskars Corp. and is used for identification purposes only. No sponsorship or affiliation is implied.

Δ Using DCB203 battery (sold separately) cutting 10 mm birch dowels.

Ω Maximum psi when used with 15° nozzle.

†GPM when used with 15° nozzle.

‡ Not intended as a storage system, unit, or organizer.

β When stored in closed position vs. DWPW2400 pressure washer fully extended.

§ Turbo nozzle 6-3/4 in. from surface vs. 40° nozzle 1 in. from surface.
