DEWALT® To Premiere New Innovation for the Commercial Concrete and Masonry Construction Industries at World of Concrete® Trade Show

New technology supporting the jobsite of the future, including Anchors Proudly Made in the USA, SDS MAX Chipping Hammers, and 20V MAX* tools, to be showcased

TOWSON, MD Jan. 14, 2022 – DEWALT, a leader in total jobsite solutions and part of Stanley Black & Decker (NYSE: SWK), the world's largest, fastest growing and most innovative tools and storage company, today announced it will debut several new products supporting the concrete and construction industries from the World of Concrete® Trade Show in Las Vegas, taking place from January 18-20.

Attendees at the World of Concrete Trade Show will be among some of the first to test and demo these new products onsite:

- 60V MAX* Cordless SDS MAX Chipping Hammers in 22 lb. (DCH892X1) and 15 lb. (DCH832X1) models
- Made in the USA Critical Connection Undercut Anchors (CCU+™)
- 20V MAX* XR® Brushless Cordless 1/2-in. Hammer Drill (DCD805)
- 20V MAX* XR® Brushless Cordless 1/2-in. Drill/Driver (DCD800)

60V MAX* Cordless SDS MAX Chipping Hammers in 22 lb. (DCH892X1) and 15 lb. (DCH832X1) models

Designed for heavy-duty demolition, concrete, and masonry work, the DEWALT 60V MAX* 22 lb. Cordless SDS MAX Chipping Hammer quickly breaks down dense concrete with up to 19.4 Joules of impact energy***. The hammer tackles horizontal and downward chipping for high-performance in mid-to-lower wall and flooring tasks and is also ideal for demanding highway jobs. The midweight 60V MAX* 15 lb. Cordless SDS Max Chipping Hammer delivers up to 10.5 Joules of impact energy*** and is highly maneuverable for horizontal chipping in upper or lower walls and concrete surface preparation applications.

The hammers deliver precision chipping with 7-position variable speed control and maintain consistent speed under load through built-in constant-speed electronics for steady operation. Both hammers feature an integrated SHOCKS Active Vibration Control® system designed to minimize vibration felt at the handles compared to rotary hammers without this feature. Each is enabled with WIRELESS TOOL CONTROL connectivity for remote activation of the DCV585 60V MAX* Dust Extractor (sold separately) and comes Tag Ready™ providing the ability to attach a DEWALT Tool Connect™ Tag for location tracking via the DEWALT Tool Connect™ app (tags sold separately). The hammers will be available April 1, 2022 as kitted units.

Made in the USA Critical Connection Undercut Anchors (CCU+™)

When critical mechanical anchor connections are required, DEWALT heavy-duty Critical Connection Undercut (CCU+™) Anchors get the job done. The 3/8-in, 1/2-in, 5/8-in and 3/4-in CCU+™ anchor range combines with Hollow Stop and Undercutting Bits, 60V MAX* rotary hammers and dust extractors for an OSHA Table 1 compliant cordless system that is designed to fast-track anchor installation and reduce dust exposure. Available now in two steel grades, Carbon Steel B7 and 316 Stainless Steel Class 2, the anchors are Made in the USA and compliant with the procurement requirements under the Buy American Act for USDA projects. They are ideal for:

- Beam, column, and post anchorages
- Safety related attachments and assemblies
- Industrial facilities and water treatment plants
- Transportation structures

- Transportation structures
- Equipment supports and utility systems
- Barriers, guards, and railing mounts
- Critical overhead anchorages
- Seismic qualification (SDC A – F)
- Tension zone / cracked concrete

20V MAX* XR® Brushless Cordless 1/2-in. Hammer Drill (DCD805) and the 20V MAX* XR® Brushless Cordless 1/2-in. Drill/Driver (DCD800)

Attendees will also preview the new DEWALT 20V MAX* XR® Brushless Cordless 1/2-in. Hammer Drill (DCD805) and 20V MAX* XR® Brushless Cordless 1/2-in. Drill/Driver (DCD800), both launching in March 2022.

In addition, DEWALT will spotlight a wide variety of its latest tools, accessories, and technology solutions at World of Concrete, including the following:

- DEWALT POWERSTACK™ 20V MAX* Compact Battery: DEWALT is the world's first major power tool brand to use pouch cell batteries designed for the construction industry
- DEWALT ELITE SERIES™ Accessories: SDS PLUS and SDS MAX Carbide Drill Bits, Diamond† Blades, and Abrasive Cutting Wheels that are Built to Last™
- 20V/12V MAX* XR® 3x360 Green Line Laser: Compatible with the DEWALT 12V MAX* and 20V MAX* battery platforms offering versatility across both battery systems
- Total Trade Solutions™: A new DEWALT end-to-end solution offerings including industry-leading software, products, services, and trainings as tailored for the specific needs and unique challenges of concrete contractors
