

DEWALT® Unveils ATOMIC COMPACT SERIES™ 20V MAX* Brushless Cordless 23 GA Pin Nailer, Driving the Transition to Cordless Convenience in Woodworking Applications

The ATOMIC COMPACT SERIES™ 20V MAX* 23 GA Pin Nailer delivers the ideal balance of size and power for fine woodworking without hoses, compressors or gas cartridges

TOWSON, MD May 2, 2022 – DEWALT, a Stanley Black & Decker (NYSE: SWK) brand and leader in total jobsite solutions, today announced one of its latest cordless innovations supporting the jobsite of the future: the ATOMIC COMPACT SERIES™ 20V MAX* Brushless Cordless 23 Ga. Pin Nailer ([DCN623](#)). With its high-output brushless motor, the DCN623 pin nailer is capable of driving 23 Ga. pin nails from 5/8-In. up to 1-1/2-In. in length into a variety of woods, including solid oak.

“Our users need the convenience and freedom offered by a cordless pin nailer that eliminates the use of compressors and hoses that traditional pneumatic products require” said Ryan Masters, Senior Product Manager, Stanley Black & Decker. “The ATOMIC COMPACT SERIES™ 20V MAX* Brushless Cordless 23 Ga. Pin Nailer delivers on those needs and is just one of the most recent innovations from DEWALT that is fueling the transition to a cordless jobsite.”

The tool boasts an impressive runtime with the ability to drive, on average, 2,000 nails per charge** to help maximize uninterrupted work time. For jobsite efficiency, the low nail lockout system with LED indicator informs users when it is time to reload and in addition, this pin nailer features a tool-free jam release that helps to reduce downtime by quickly clearing jams, as well as tool-free depth adjust for precise nail placement.

The ATOMIC COMPACT SERIES™ 20V MAX* Brushless Cordless 23 Ga. Pin Nailer will be available this month as a bare unit (DCN623B) or kitted with a battery and charger ([DCN623D1](#)) where DEWALT ATOMIC COMPACT SERIES™ products are sold.
