

## DEWALT® Introduces Its First 20V MAX\* XR® 3x21-In. Cordless Belt Sander

DEWALT today announced the expansion of its existing range of cordless woodworking and carpentry power tools with its first 20V MAX\* XR® 3x21 in. Cordless Belt Sander (DCW220B). The Belt Sander features up to 22% more power vs. PorterCable® 352VS corded belt sander\*\*, and delivers more sanding surface area\*\*\*, ideal for rapid material removal.

The variable speed trigger with lock on and speed selection dial provide ultimate speed and application control with 25 speed increments. With the quick-release belt change, sandpaper can be easily changed while the over-molded auxiliary handle allows for two-handed operation and grip for scribing. The 3x21 in. platen enables large surface area sanding, and a brushless motor delivers runtime and efficiency.

## **DOWNLOAD THE PRODUCT GUIDE BELOW**

The dust collection feature with an adapter for the tool-free dust chute is compatible with DEWALT's Airlock™ system or a standard 35 mm dust extractor (sold separately) to minimize dust during sanding. Wireless Tool Control™ allows for ease of use when paired with compatible DEWALT vacuum or dust extractor (sold separately).

The belt sander will be available as a bare unit beginning in March where DEWALT products are sold.

\*Maximum initial battery voltage (measured without a workload) is 20 volts. Nominal voltage is 18 volts.

\*\*using DCB609 battery (sold separately), based on maximum watts out.

\*\*\* 16.7% more sanding surface area vs. Milwaukee (2832-20) M18 FUEL 18-Volt Lithium-Ion Cordless 3"x18"Belt Sander

*Milwaukee, M18, and FUEL are registered trademarks of Milwaukee Electric Tool Corporation which has not endorsed or approved this comparison.*
