

From AHR Expo, DEWALT® Expands Trade Solutions with New Tools and Accessories for Plumbers, Pipefitters and HVACR Technicians

- *DEWALT debuts new 20V MAX* XR® 1-1/2 IN. PEX Expander, 20V MAX* Copper Swage Tool, Compact IPS Press Jaws Kit and IMPACT CONNECT™ Inside Pipe Cutter to help enhance productivity*
- *DEWALT POWERSHIFT™ Core Drill to be showcased as part of DEWALT's new groundbreaking equipment system designed to optimize the workflow of jobsites through electrification*
- *Visit booth S10134 in the South Building from January 22-24*

TOWSON, MD January 22, 2024 – DEWALT, a Stanley Black & Decker (NYSE: SWK) brand and leader in total jobsite solutions, today unveiled its latest products for plumbers, pipefitters and HVACR technicians at AHR Expo in Chicago. New tools added to DEWALT's system of trade solutions include a 20V MAX* XR® 1-1/2 IN. PEX Expander ([DCE410](#)), 20V MAX* Copper Swage Tool (DCE450), Compact IPS Press Jaws kit ([DCE212K](#)) and IMPACT CONNECT™ Inside Pipe Cutter ([DWAIPCIR](#)).

"At DEWALT, we are committed to providing the best end-to-end total workflow solutions for the heating, cooling and plumbing trades," said Justin Burke, Product Manager, Stanley Black & Decker. "Our latest product innovations are reliable, efficient, and easy-to-use tools that empower tradespeople to do their best work no matter the job."

20V MAX* XR® 1-1/2 IN. PEX EXPANDER

The 20V MAX* XR® 1-1/2 IN. PEX Expander ([DCE410](#)) is the industry's lightest cordless pro-grade solution for expanding 1-1/4 IN. and 1-1/2 IN. PEX pipe** and provides up to 20% faster speed of expansion than the Milwaukee® 2632 M18 PEX Expander¹. The tool is capable of expanding 3/8 IN. - 1-1/2 IN. expansion-type PEX, including Uponor® ProPEX® tubing.

Other tool features include an auto-rotating head mechanism for even expansion surfaces, a long trigger design, an LED light, a side-mounted hang hook, as well as CHIP-READY™ pocket to pair with a TOOL CONNECT™ Chip for seamless inventory management (Tool Connect™ Chip [DCE042](#) sold separately).

The [DCE410P1](#) kit includes 1 IN., 1-1/4 IN. and 1-1/2 IN. expansion heads and is compatible with existing DEWALT 3/8 IN. – 1 IN. expansion heads (sold separately).

20V MAX* COPPER SWAGE TOOL

The 20V MAX* Copper Swage Tool (DCE450) is a soft copper expansion tool for HVACR professionals, efficiently producing even expansions in seconds. Designed to swage 1/4 IN. to 1-5/8 IN. soft and annealed copper, the swage tool is designed to increase efficiency of HVACR installations by reducing the number of copper fittings and brazed joints needed to finish the job. The tool features auto rotating expansion heads that produce swages suitable for brazing as well as a steel body and nickel-plated steel jaws for durability.

The DCE450D1 kit comes with six expansions heads organized in a durable blow molded kitbox.

1/2 IN. – 1 IN. COMPACT IPS PRESS JAWS KIT

Designed for use with the DEWALT® 20V MAX* Compact Press Tool ([DCE210](#)—sold separately) the 1/2 IN. to 1 IN. DEWALT Compact IPS (iron pipe size) Press Jaws kit ([DCE212K](#)) is ideal for connecting carbon steel fitting systems to black iron pipe. Engineered to achieve optimal distribution of force while maintaining a high level of durability throughout the life of the product, the compact series jaws feature a galvanized coating to help defend against corrosion. DEWALT® IPS press jaws are compatible with most professional-grade carbon steel press fitting systems including Viega Megapress®, Apollo Powerpress® and Mueller® Streamline® carbon steel.

The DCE212K kit includes 1/ IN., 3/4 IN. and 1 IN. IPS jaw sizes.

IMPACT CONNECT™ INSIDE PIPE CUTTER

The IMPACT CONNECT™ Inside PVC Pipe Cutter ([DWAIPCIR](#)) is the latest addition to the DEWALT IMPACT CONNECT™ line, a specialized line of attachments that quickly convert select impact drivers² into fast and powerful cutting tools. Designed with a durable diamond grit³ cutting edge that delivers 10X longer life⁴, this versatile accessory leverages the power of an existing impact driver to cut 2X faster⁴ on tough plumbing jobs. The attachment features a mechanically fixed blade for blade retention, a corrosion resistant barrel, a laser-etched depth gauge and a 1/4 IN. hex shank.

In addition, DEWALT will spotlight a wide variety of its latest tools, accessories and technology at AHR Expo, including the following:

- **DEWALT POWERSHIFT™ Core Drill:** Part of the new groundbreaking equipment system designed to optimize the workflow of jobsites through electrification, the core drill is powered by a 554 WH DEWALT POWERSHIFT™ battery and designed for high performance cordless drilling with core bits up to 3/8 IN. Included in the DEWALT PERFORMER

designed for high-performance cordless coring with core bits up to 6-3/8 in. Included in the DEWALT PERFORM & PROTECT™ line of tools, the drill features anti-rotation technology to prevent over rotation in a bind up situation.

- **DEWALT PressACR® Compact Press Jaws (DCE214K):** Designed for use with the DEWALT® 20V MAX* Compact Press Tool (DCE210—sold separately) to make refrigeration connections using NIBCO's PressACR® press fittings.

The DEWALT booth will be located in the South Building at S10134. To learn more about the DEWALT's trade solutions and other products, please visit: www.dewalt.com.

*Maximum initial battery voltage (measured without a workload) is 20 volts. Nominal voltage is 18.

** Bare tool vs. Milwaukee® 2632 M18 Expansion Tool and 2932 M18 2" Expander Kit.

Milwaukee® is a registered trademark of Milwaukee Electric Tool Corp., which has not endorsed or approved this comparison.

¹ Using DCB205 5Ah Battery on 1.5" PEX-A Pipe vs. Milwaukee® 2632 M18 PEX Expander with 48-11-1850 XC5.0 Battery. Milwaukee® is a registered trademark of Milwaukee Electric Tool Corp., which has not endorsed or approved this comparison.

Uponor and ProPEX are registered trademarks of Uponor Oyj Joint-stock Company, which has not endorsed or approved this statement of compatibility.

²Optimized for the following impact drivers (sold separately): DEWALT® - DCF787, DCF809, DCF840, DCF850, DCF885, DCF887, DCF888

³The abrasive cutting edge is manufactured with lab-made diamond particles engineered for cutting.

⁴ vs. legacy IRWIN IRA81643 PVC pipe cutter when cutting 2 in. schedule 40 PVC pipe embedded in 6800PSI concrete using DCF887 impact driver, DCBP034 battery, and DW0521 impact chuck (sold separately).

Viega® and Megapress® are registered trademarks of Viega Holding GMBH & Co., which has not endorsed or approved this statement of compatibility.

Apollo Powerpress® is a registered trademark of Aalberts Integrated Piping Systems Americas, Inc., which has not endorsed or approved this statement of compatibility.

Mueller® and Streamline are trademarks of Mueller International, LLC., which has not endorsed or approved this statement of compatibility.

PressACR® is a registered trademark of Nibco Inc.
