

# DEWALT Unveils MSUITE Hangers™, a Groundbreaking Automation Tool to Transform Hanger Modeling for Mechanical, Electrical and Plumbing Contractors

- DEWALT to host live webinar on Wednesday, May 14 to introduce the software and highlight the program's groundbreaking capabilities and benefits
- [Early adopters](#) of MSUITE Hangers are seeing significant efficiency gains: "What used to take 10 steps now takes one," according to a Virtual Design and Construction Director at Midwestern Mechanical, Inc. "The automation and accuracy are like night and day compared to previous methods. MSUITE Hangers has streamlined our workflow and eliminated inefficiencies."

**TOWSON, MD May 13, 2025** – DEWALT, a Stanley Black & Decker (NYSE: SWK) brand and leader in total jobsite solutions, is further advancing its construction technology offerings with the launch of MSUITE Hangers, a revolutionary hanger placement software redefining how MEP (Mechanical, Electrical, and Plumbing) and industrial contractors approach hanger layout and modeling. As the next generation of HangerWorks Pro, MSUITE Hangers delivers groundbreaking automation setting a new standard for hanger placement workflows.

"With trade-based workflow solutions at the core of DEWALT's approach to innovation, MSUITE Hangers addresses a critical bottleneck in the industry that we are committed to helping solve," said Ian Harney, Vice President, Product Management, Anchors, MEP, & Construction Technology, DEWALT. "While hangers typically represent only 5 percent of a building information model (BIM), they can consume up to 25 percent of modeling time. MSUITE Hangers is a complete reimagining of how hangers should be placed, modeled, and coordinated across teams."

By eliminating the inefficiencies of manual hanger placement and expanding capabilities of legacy solutions, MSUITE Hangers helps contractors save time and complete projects with accuracy and confidence. The software solution provides the following key benefits to MEP contractors:

- **Automated Hanger Placement:** Saves time with hangers that dynamically adjust to model changes, eliminating manual rework.
- **Streamlined Processes:** Boosts project efficiency with automated field point generation, beam detection, and pipe clamp integration.
- **Integrated Modeling:** Models hangers directly while drawing MEP systems, for seamless, real-time coordination within the design workflow.
- **Versatile Trapeze Hanger Support:** Handles single-tier and multi-tier trapeze hanger setups enabling flexibility for complex projects.

MSUITE Hangers is available now. To learn more about the software, join DEWALT's live webinar on Wednesday, May 14 at 3:00 EDT ([register here](#)) or visit [dewalt.com](http://dewalt.com).

## **About DEWALT**

DEWALT, a Stanley Black & Decker brand, is a leader in total jobsite solutions. For more than 100 years, DEWALT has been powering the future of construction with tools and technologies that have been designed, built and tested to help deliver safety and productivity on every jobsite. For more information, visit [www.dewalt.com](http://www.dewalt.com) or follow DEWALT on [Facebook](#), [Instagram](#), and [LinkedIn](#).

## **About Stanley Black & Decker**

Founded in 1843 and headquartered in the USA, Stanley Black & Decker (**NYSE: SWK**) is a worldwide leader in Tools and Outdoor, operating manufacturing facilities globally. The Company's approximately 48,000 employees produce innovative end-user inspired power tools, hand tools, storage, digital jobsite solutions, outdoor and lifestyle products, and engineered fasteners to support the world's builders, tradespeople and DIYers. The Company's world class portfolio of trusted brands includes DEWALT®, CRAFTSMAN®, STANLEY®, BLACK+DECKER®, and Cub Cadet®.
