Inspired by Insights from its End Users, DEWALT® Releases New 20V MAX* ATOMIC™ Multi-Head Drill/Driver to Quickly Switch Between Applications

TOWSON, MD., July 2, 2025 – DEWALT, a Stanley Black & Decker brand and leader in total jobsite solutions, announced the release of its new 20V MAX* ATOMIC™ Multi-Head Drill/Driver (DCD803B). Designed to take on a variety of tasks in hard-to-reach spaces, the new compact and versatile multi-head drill/driver comes with four attachments that can be switched quickly and easily between applications.

“Productivity is vital on every jobsite, and the new DEWALT 20V MAX* ATOMIC™ Multi-Head Drill/Driver is designed with that in mind,” said Nick Cappolloni, Senior Product Manager. “With the ability to quickly switch between attachments, pros can move seamlessly from drilling in tight corners to driving fasteners in hard-to-reach spaces all with one compact tool. This versatility helps minimize downtime and keeps our users working efficiently, no matter what the day demands.”

Inspired by the insight that users wanted a more versatile 20V MAX* tool that could handle a wider range of applications without sacrificing power, the 20V MAX* ATOMIC™ Multi-Head Drill/Driver features a drop-in load mechanism that allows users to quickly switch between a 1/2-In. metal chuck attachment, a 1/4-In. right angle attachment, a 1/4-In. offset attachment and a 1/4-In. quick connect attachment.

The 20V MAX* ATOMIC™ Multi-Head Drill/Driver is available as a bare tool and includes a mountable organizer and belt hooks to hold attachment heads.
