

DEWALT® Unleashes a Major Expansion of Cordless Carpentry Tools for the Toughest Jobsites

New cordless professional tools engineered to dominate cutting, sanding, and fastening - for pros who expect the best performance from DEWALT

TOWSON, Md., Aug. 11, 2026 /PRNewswire/ -- DEWALT, a Stanley Black & Decker brand and leader in total jobsite solutions, today announced a major expansion of its cordless carpentry lineup with new tools built for professional carpenters, remodelers, woodworkers and general contractors.

Built to work as hard as the pros who use them, the expanded lineup delivers the power, control and toughness needed to push through demanding work from start to finish. From a plunge track saw and random orbital sanders to an oscillating multi-tool and finish nailer, the latest additions add serious capability to DEWALT's cordless lineup with purpose-built solutions designed to perform when the pressure is on.

"We know pros need tools that can match the speed of the job without compromising on control or quality," said Brandon Stumpf, Senior Director of Product Management, DEWALT. "Our newest carpentry products are designed to deliver the performance, precision, and reliability pros depend on every day – from the first cuts to the final nail."

New DEWALT Carpentry Total Solutions include:

- **20V MAX* XR® 6-1/2 in. Plunge Track Saw** ([DCS525B](#) / [DCS525ST](#) / [DCS525STWW1](#)): Built for precise cuts, this track saw delivers more power with advanced control vs. the leading competitor¹. The DCS525STWW1 kit includes a DEWALT® 20V MAX* XR® 8Ah battery, charger, track connecting rod and two 30-inch tracks for a total system length of 60 inches. New compatible saw blade options include a 6-1/2 in. 48T Fine Finish Track Saw Blade ([DWA261248TS](#)) and a 6-1/2 in. 24T General Purpose Track Saw Blade ([DWA261224TS](#)).
- **20V MAX* XR® 5 in. Random Orbital Sander** ([DCW211B](#)) and **20V MAX* XR® 6 in. Random Orbital Sander** ([DCW230B](#)): These sanders (battery and charger sold separately) offer low vibration and fast material removal across a range of applications. The 5 in. model offers the best control with fastest material removal² and is ideal for small surfaces and tight spaces, sanding up to 50 sq.-ft³. The 6 in. model has the fastest material removal with lowest vibration⁴ and is designed for larger wood surfaces and sands up to 200 sq ft⁵.
- **20V MAX* XR® Oscillating Multi-Tool** ([DCS359B](#) / [DCS359E1](#)): Make fast, efficient cuts through wood, metal, drywall, PVC and plastic with the 20V MAX* XR® Oscillating Multi-Tool. Offering the fastest cutting speed with lowest vibration vs. leading competitors⁶, this tool features a powerful brushless motor and an aggressive 4.2-degree oscillating angle.
- **20V MAX* XR® Cordless 16GA Straight Finish Nailer** ([DCN220B](#)): DEWALT's most compact 20V MAX* 16GA straight finish nailer⁷ is designed to help users leave pneumatic tools behind. Capable of driving up to five nails per second⁸, it can maneuver in tight areas at only 3.1 inches in width and features a tool-free jam release to help reduce downtime. (Battery and charger sold separately.)
- **20V MAX* XR® Cordless 18GA Brad Nailer** ([DCN210B](#) / [DCN210E1](#)): Introduced earlier this year, DEWALT's most compact 18GA brad nailer⁷ is capable of driving up to 5 nails per second⁸ and completing applications in tight spaces at 10.2 inches in height.

The expanded carpentry lineup also includes accessories such as a **Vinyl Siding Adapter** ([DZNRNVSA](#)), **TOUGHSERIES™ Construction Jack Extension** ([DWH83554](#)) and **TOUGHSERIES™ Construction Jack Pad Accessory Pack** ([DWH83554](#)).

All products are now available where DEWALT products are sold.
